If you can do with the help

KEYMACRO 2.8 is a full-featured and easy-to-use macro recorder, recorder and play back tool. With it you can record any keyboard input in any application on your computer. KeyMacro is a program for helping you to store the keyboard shortcuts that you use frequently to save your time. KeyMacro is made by Dazus Engineering Limited. In order to use it, you will need to install the Dazus keyboard driver that you can download from www.dazus.com. KeyMacro is a powerful recording application that will record and playback any keyboard actions as you type in any application. You can store any keyboard input as a Macro in KeyMacro. The program allows you to choose any window as a recording area, write the shortcut using the standard command and character format, and customize the key combination. The program includes other useful functions, such as the ability to play back the macro when it is saved, automatic playback of macros when the application is closed, which includes playback of macros automatically when you start a new session, and the ability to define a shortcut to the program for easy access. KeyMacro supports the following operating systems: Microsoft Windows 95, 98, Me, NT 4, 2000, 2003, Vista, and XP; Mac OS 9, and Mac OS X. KeyMacro is a free program that comes with no advertisements, no spyware and no registration requirements. In addition, you can have your macros automatically saved into the program. Manga Playback was created as a Windows application to view your own manga series. You don't have to be an expert at editing to view your manga. If you need to fix spelling or minor mistakes Manga Playback is there to help you. For the most part, Manga Playback looks like your ordinary manga viewer. The interface is clean and simple. If you're looking for a manga editor, Manga Playback might not be it for you. The program lets you view your manga in a convenient fashion. Besides viewing your manga, Manga Playback has the ability to print your manga. Manga Playback is a free Windows application that displays your own manga. There is no need to register or get a log in. This means you can enjoy a number of your manga series for free. Version 1.0.4 adds the following features. - A help file is now included with the application. - The volume slide out menu has been added. - The user interface 77a5ca646e
