Although the interface is not the easiest to figure out, it is fairly intuitive once you get the hang of it. I use the app for shutting down my computer, shutting down my computer at night, and turning off the PC during the day. Gone in a second By James Written on: 2013-10-08 Its' a nice and useful tool. I just installed it on my XP laptop and almost immediately it was of use. The only downside is that it shuts down the computer on startup, as opposed to turning off the PC. Works great! By CFay Written on: 2013-09-09 This is a great app. I have been a long time Mac user, but recently have been converting all my friends and family. The best thing about this app is that you can shut your system down, restart it, and lock it without having to boot up or login. Needs to lock after shutdown By Gary Written on: 2013-06-18 Very useful app, just a couple of things you need to consider before installing. First, it does not "always lock" after shutdown, only when you click "Always". Second, the "always" option is not remembered between sessions. Lastly, there is no reason why the user should not have the option to log in when the PC is booted. I love this By Brandon Written on: 2013-04-16 I have Windows XP and love the quick reboot without logging into. I love the restart and shutdown.
